Star Token Board

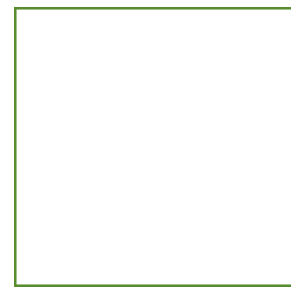

Contributed by Vicky Mckinney, BCBA
GiGi's Playhouse Nashville

Token Board Instructions

1. Decide what student is working towards and write it or add a picture of it
2. Move a star into the box when they earn it
 - a) You can do this online by dragging the star into the box on slide 3
 - b) You can also print the slide 4, cut around the stars, and physically place them in the boxes.
 - c) How often you move a star will depend on how much reinforcement the student needs
 - d) They may need to get a star every 2 minutes or every 10 minutes
3. After the last star gets moved in – student earns the reward!
4. You can use this more than one time during an activity
 - a) Choose a new reward or decide on the same one
 - b) Reset the stars and continue
5. Slide 3 shows how you can add in a picture schedule – a visual reminder for the student what they need to do to get the star. Try it either way!

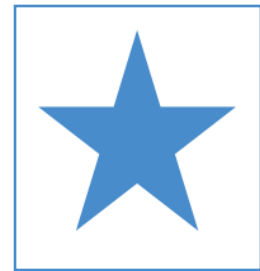

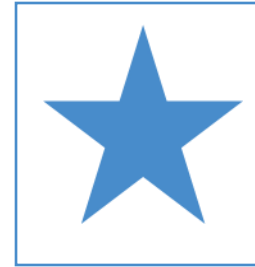

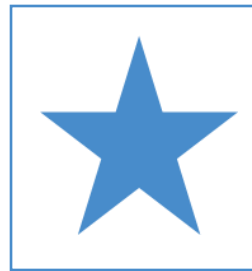

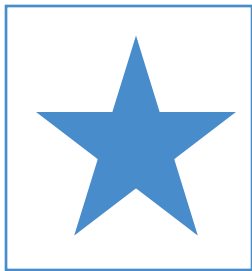

I am working for _____

I am working for _____

Cut on the dotted line, and cut out each star separately:

I am working for _____
